## REGENERATIVE URBAN FARMING SYSTEMS PROMOTING HEALTHY COMMUNITIES

### SoxxBoxx growing system advantages:

- Alegría's Premium Living Soil used in our SoxxBoxx produces the best tasting, fastest growing, strongest plants loaded with all essential nutrients;
  - Polypropylene Soxx breathe, providing more oxygen to the roots by promoting "root pruning";
    - SoxxBoxx optimizes combined aeroponic, hydroponic and organic systems;
  - Grow your favorite "healing foods" including leafy greens, medicinal herbs and vegetables anywhere;
- Above ground growing keeps crops away from hungry critters, makes harvesting standing up easy and provides a cooler growing environment up and away from contaminated or deficient soils;
  - 95% less water is required, 50% less fertilizer and zero toxic pesticides;
    - Modular design can be scaled up to any size;
    - Automatic irrigation or hand watering is simple and fast;
    - SoxxBoxx regenerative farming can provide 6-8 crop cycles a year;
      - 100% recyclable Earth-kind components;
    - Simple and cost-effective design allows for success and low maintenance;
  - SoxxBoxx is a portable system that can be deployed anywhere and removed easily.

### SoxxBoxx Environmental benefits

Below are the figures for 1-4'x8' SoxxBoxx with 48 linear feet of GardenSoxx using premium Alegría Living Soil.

- Storm Water Absorption: 81.6 gals/tray
- Organics Diverted from Landfill: 3,216 lbs/tray (based on amount of raw mat'l required to produce enough growing media to fill 48 lft of GardenSoxx)
- Methane Avoidance (due to diversion): 5,664 lbs CO2e/tray
- Carbon Sequestered by Vegetation: .38 lbs CO2e/tray
- Carbon Sequestered by Soil (Alegría Soil): 528 lbs CO2e/tray
